

# OverView Font&Image Editor 7

*Utilizes the capabilities of the graphical user interface on the PC for the most productive tools in the AFP marketplace.*

## Product Description

The **ISIS OverView Font&Image Editor** is a powerful graphical toolkit for creating and editing font and logo resources in IBM AFP standard object formats.

- Many times faster than host GDDM and ISPF based editing tools for fonts and images.
- Reduce applications maintenance time and cost.
- Direct editing of AFP object files, no time and disk space wasted with conversions to any internal formats.
- Product can be used for any AFP platform from VM, VSE, z/OS, AIX, AS400/iSeries to Windows 2K/XP/2K3/VISTA/2K8/7.
- Full AFPDS data structure support, including unbounded font formats for 3800.
- Conversion to and from PC image formats included.
- Supports 240/300/600 PEL fonts and images.
- Optional font conversion support for Adobe and TrueType.

All OverView products support national AFP languages like Arabic, Hebrew, Bahasa, Thai and also DBCS fonts for Japanese, Korean and Chinese.

## Font Editing Functions

- Load and edit or create AFPDS coded fonts, codepages and character sets on a single display.
- Edit character bitmap patterns.
- Cut, copy, paste, merge and delete functions for the character bitmap via the clipboard.
- Copy bitmaps from applications.
- Create shaded and inverted character sets.
- Convert character sets to/from fixed pitch to proportional spacing.
- Cut, copy, paste, merge and delete groups of characters between character-sets.
- Drag and drop codepage editing.
- Convert bounded/unbounded font formats.
- Convert image to bounded or unbounded font format character set.
- DBCS font support for Chinese and Japanese.

## Image Editor

- TIFF full color, JPEG
- Dither/convert PC image types to AFP images
- Load TIFF black and white images from PC products like CorelDraw.
- Load and save AFP PSEG and IOCA formats in 240/300/600 PEL.
- Pixel edit images from 10% to 800% display zoom.
- Rescale and resize images.
- Cut, clip and crop functions.
- Invert and shade images.
- Line-drawing into image.
- Flip and mirror image.
- Darken image.
- Rotate in 1 degree increments.
- Spray-shade in various brush width.
- Edit PELs with various pen width.
- Text entry into image.

## Prerequisites

- Pentium IV or higher
- 512 MB RAM (1 GB recommended)
- 100 MB disk space for font files.
- MS parallel/serial or PS/2 compatible mouse
- File transfer to AFP platform.

## AFP Prerequisites

- IBM PSF 1.3 or 2.0 or higher.
- An IND\$FILE compatible file-transfer or TCP/IP.
- An AFP compatible printer.
- All other platforms like AIX, AS400/iSeries, Windows 2K/XP/2K3/VISTA/2K8/7 can use the created resource objects.
- ISIS does not supply any AFP fonts with the products. These fonts are copyrighted property of the respective owners.

## FontConverter

The optional *FontConverter* provides the capability to convert TrueType or Adobe Type 1 outline fonts to AFP outline fonts (DBCS based on code page 1200 supported as well) or AFP raster fonts in 240/300/600 dpi.

## Order Information

*OverView Font&Image Editor 7 for Windows 2K/XP/2K3/VISTA/2K8/7* is generally available.

## Maintenance

The Terms and Conditions for ISIS Software Products apply. Free service period is 6 months after installation. A maintenance agreement is offered optionally for updates and hotline.

## Training

ISIS offers special in-house training or standard class room courses.

## Price Information

Please refer to the ISIS price list.

A multiple user LAN license is available.

For total investment protection ISIS offers the upgradeability to *Papyrus Designer* for the list-price difference.

## The OverView Family

- *ISIS OverView AFP Designer 7*
- Integrated OGL/PPFA design.
- *ISIS OverView AFPDS Compiler 7*
- OGL/PPFA compiler for PC.
- *ISIS OverView Font/Image Editor 7*
- Edit all AFP fonts and logos.
- *ISIS OverView Digitizer Pad*
- Driver for CAD drawing pad.
- *ISIS OverView AFP Designer 7 for AS400/iSeries*
